Pramod Kumar Behera

Cloud & DevOps Engineer

+91-9777246767 | pramodkumarbehera777@gmail.com

Summary :

Cloud & DevOps Engineer with **3 years of experience** in designing, automating, and managing secure, scalable, and high-availability cloud infrastructure on **AWS**. Proficient in **Terraform**, **Jenkins**, **Docker**, and **Kubernetes (EKS)** to streamline CI/CD pipelines and automate deployments. Experienced in **on-premises to AWS migration**, application containerization, and performance monitoring with **Prometheus** and **Grafana**. Strong understanding of **networking, load balancing, infrastructure automation,** and **cost optimization** using DevOps best practices.

Technical Skills:

- **Operating Systems:** Ubuntu 22.04, Amazon Linux, Windows 11
- **Cloud Platform: AWS (EC2, S3, VPC, RDS, DMS, ECR, ALB, ASG, IAM, Route 53)**
- **CI/CD Tools: Jenkins, GitLab CI, Maven, SonarQube**
- **Containerization & Orchestration:** Docker, Kubernetes (EKS)
- **Infrastructure as Code:** Terraform, Ansible
- **Monitoring Tools:** Prometheus, Grafana
- **Version Control:** Git, GitHub, GitLab
- **Web & App Servers:** Apache, Nginx, Tomcat
- **Other Tools:** Jira

Professional Experience :

Cloud & DevOps Engineer

Quantumware Technical Service Pvt. Ltd., Bhubaneswar | Aug 2022 – Oct 2025

Project Summary:

#1.Project:	3-Tier Application Deployment on AWS (EKS + Terraform + Jenkins)
Role	DevOps / Build & Deployment Engineer
Period	Feb 2023 – Oct 2025

Responsibilities: -

- **Designed and deployed a 3-tier web application architecture (frontend, backend, database) using AWS EKS, ALB, and RDS.**
- **Automated infrastructure provisioning using Terraform (VPC, subnets, EKS, RDS, Security Groups, IAM).**
- **Implemented CI/CD pipeline using Jenkins integrated with GitHub for build, test, and deployment automation.**
- **Integrated SonarQube for static code analysis and improved build quality.**

- **Containerized frontend (Nginx) and backend (Node.js / Java) using Docker and stored images in Amazon ECR.**
- **Deployed and managed applications on Kubernetes (EKS) with rolling updates and Horizontal Pod Autoscaler (HPA).**
- **Implemented Prometheus and Grafana for cluster and application performance monitoring.**
- **Ensured high availability and SSL/TLS security using Route 53 and Load Balancers.**

Key Achievements:

- Reduced deployment time by **60%** with automated CI/CD pipelines.
- Achieved **zero-downtime deployments** using Kubernetes rolling updates.
- Enhanced application reliability and observability using Grafana dashboards.

#2.Project:	On-Premises to AWS Cloud Migration
Role	DevOps & Cloud Engineer
Period	Aug 2022 – Feb 2023

Responsibilities: -

- **Led end-to-end migration of on-premises applications and databases to AWS Cloud with 99.9% uptime.**
- **Migrated over 1 TB MySQL data from on-premises to Amazon RDS using AWS Database Migration Service (DMS).**
- **Automated infrastructure setup using Terraform, minimizing manual effort.**
- **Containerized existing applications using Docker and deployed them on EC2 instances.**
- **Designed CI/CD pipelines with Jenkins and GitLab for automated testing and deployment.**
- **Integrated SonarQube for code-quality analysis and regression testing.**
- **Defined rollback and recovery plans to minimize downtime during migration.**

Key Achievements:

- **Achieved seamless migration with zero data loss.**
- **Optimized infrastructure performance through automation and monitoring.**

Education :

Master of Computer Applications (MCA) | 2017 – 2020

Bachelor of Science in Computer Science (BSc) | 2014 – 2017

Personal Details :

- **Date of Birth: 31 July 1997**
- **Marital Status: Single**
- **Languages Known: English, Hindi**
- **Address: Charmal, Rairakhol, Sambalpur, Odisha – 768106**

Declaration: I hereby declare that the information furnished above is true to the best of my knowledge.

Place: Sambalpur **Pramod Kumar Behera**
